

Designing Pedestrian Facilities for Accessibility (DPFA) Course

June 28-29, 2016- Colorado Springs, Co.

This two day training was designed to ensure that pedestrian facilities and access routes are properly constructed and maintained for all individuals, including those with disabilities. This course also focuses on proper design and maintenance of pedestrian access routes in new construction or when existing facilities are altered. Participants are engaged through a power point presentation, small group discussion, and an outdoor exercise. This training was developed to provide information and best practices for those involved in the design and maintenance of pedestrian facilities, and for those individuals that ensure the proper adherence to all applicable laws and guidelines. This course is taught from the perspective of the Public Right of Way Accessibility Guidelines (PROWAG), a [best practice](#) for public rights of way.

Modules

1. Laws, Regulations, and Pedestrian Characteristics
2. Pedestrian Access Route (PAR)
3. Curb Ramps and Blended Transitions
4. Detectable Warning Surfaces
5. Pedestrian Street Crossings (Crosswalks)
