

MEMORANDUM

DEPARTMENT OF TRANSPORTATION

HQ Safety and Traffic Engineering Branch
4201 E. Arkansas Avenue, 3rd Floor
Denver, Colorado 80222
303.757.9543 (Voice)
303.757.9219 (Fax)

DATE: April 2, 2009
TO: CDOT Program, Resident, and Project Engineers
FROM: K.C. Matthews, Traffic Specs & Standards Engineer
SUBJECT: Updated Fabrication Requirements for ARRA Signs

CDOT Management has decided that all the special signs identifying ARRA funded projects are to be fabricated on aluminum panels. Therefore, place the following footnote on the sign tab of all ARRA projects that have these signs:

"THESE CLASS III PANELS SHALL BE 0.125 IN. MINIMUM THICKNESS SHEET ALUMINUM."

Indicate that this footnote applies only to the special signs identifying the project as ARRA funded.

ARRA projects already advertised should be revised under advertisement to include this requirement. A CMO should be used to add this requirement to ARRA projects on which bids have already been opened.

If you have any questions, contact me at k.c.matthews@dot.state.co.us or 303-757-9543.
