Typical Control Monument Cap
Not to Scale

▲ CM-MP - Control Point Monuments set by CDOT. They are CDOT Type 2 monuments, a 3¼" dia. aluminum control monument cap (as shown) on a 3' x¾" dia. aluminum security rod on a 3' x¾" dia. smooth aluminum rod.

General Notes:

1. This Project Control Diagram is not a boundary survey of the adjoining property and is prepared for the Colorado Department of Transportation purposes only.

2. This control diagram is subject to change and may not be the most current set. It is the user's responsibility to verify with CDOT that this set is the most current. The information contained on the attached drawing is not valid unless this copy bears an original signature of the Professional Land Surveyor hereon named.

3. Refer to the M-629-1 Survey Monuments of the Standard Plans dated July, 2012 found in The Colorado Department of Transportation, M & S Standards for typical survey monument descriptions.

NOTICE: According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discover such defect. In no event may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon.

DEPARTMENT OF TRANSPORTATION STATE OF COLORADO

PROJECT CONTROL DIAGRAM
PROJECT NO. FBR 0704-234

Interstate Highway 70 - MP 278.50 to 283.90
Sections 21, 22, 23, 24, Township 3 South, Range 67 West, and
Sections 29 & 30, Township 3 South, Range 66 West,
of the 6th Principal Meridian
City and County of Denver and Adams County

3.01	(1)	Title Sheet
3.02	(1)	Coordinate Tables
3.03	(1)	Plan Sheets
	(3)	Total Sheets

BASIS OF BEARINGS: Bearings used in the calculations of coordinates are based on a grid bearing of N 86°24'06" W between NGS point "Pena" (PID# AE5246), being a stainless steel rod in monument box, to NGS point "B 394" (PID# KK1294), being a 3¼" brass cap in concrete abutment stamped "B 394 -1983".

The survey data was obtained from a Global Positioning System (GPS) survey based on the Colorado High Accuracy Reference Network (CHARN).
Said grid bearing is NAD 83 (1992) Universal Transverse Mercator (UTM) Zone 13 North.

BASIS OF ELEVATION: Project elevations are based on NGS point "Pena" (PID# AE5246) being a stainless steel rod in monument box, having a published NAVD 88 elevation of 5414.53 ft.
Elevations shown herein were GPS derived through completion of a static GPS network survey.

COORDINATE DATUM: Project coordinates are modified Universal Transverse Mercator (UTM) Zone 13 North NAD '83/(1992) coordinates. The combined elevation/scale factor used to modify the coordinates from UTM to project coordinates is 1.0006504025.
The resulting project coordinates are truncated by 14,000,000' in the Northing and 1,000,000' in the Easting after converting from UTM coordinates to project coordinates.
Units are US Survey Feet.

Project Coordinates Northing US Survey Feet =
(UTM Coordinate Northing in sft * 1.0006504025 - 14,000,000).

Project Coordinates Easting US Survey Feet =
(UTM Coordinate Easting in sft * 1.0006504025 - 1,000,000).

The horizontal positional accuracy tolerance for this project control diagram meets the CDOT Class "A" primary tolerance as defined in the CDOT survey manual chapter 5, paragraph 5.5.2 and 5.5.3.

The vertical accuracy tolerance for this project control diagram meets the minimum vertical accuracy tolerance as defined in the CDOT survey manual chapter 5, paragraph 5.8.6.

The CDOT survey manual can be viewed at
HTTP://WWW.COLORADODOT.INFO/BUSINESS/MANUALS/SURVEY

SURVEYOR STATEMENT (PROJECT CONTROL DIAGRAM)

I, Geoffrey F. Stephenson, a professional land surveyor licensed in the State of Colorado, do hereby state to the Colorado Department of Transportation that this Project Control Diagram was prepared and the field survey it represents was performed under my responsible charge, and based upon my knowledge, information and belief is in accordance with applicable standards of practice defined by the Colorado Department of Transportation publications. This statement is not a guaranty or warranty, either expressed or implied.

SUPPLEMENTAL LAND SURVEY CONTROL DIAGRAM

Interstate 70 MP 274.5 to 285.8
Sections 19, 20, 28, & 29, Township 3 South, Range 66 West
Sections 19, 20, 21, 22, 23, & 24, Township 3 South, Range 67 West
& Sections 23 & 24, Township 3 South, Range 68 West
of the 6th Principal Meridian
City & County of Denver and Adams County

GENERAL NOTES:

1. This Supplemental Land Survey Control Diagram (SLSCD) was produced by utilizing existing control as established and listed in the Land Survey Control Diagram (LSCD) produced for CDOT Project No. NH 0361-070 and filed in the records of the City & County of Denver under Reception No. L013566. The information contained in the LSCD produced for CDOT Project No. NH 0361-070 has been approved by the CDOT Region Survey Coordinator for re-use on Project Number: FBR 0704-234, Project Code: 19631.

2. This SLSCD is not a Land Survey Plat, Boundary Survey or Right of Way Plat and does not address matters of title.

3. This SLSCD is subject to change and may not be the most current diagram. It is the user's responsibility to verify with CDOT that this diagram is the most current. The information contained on this SLSCD is not valid unless this copy bears an original signature of the Professional Land Surveyor hereon named.

4. Primary Horizontal Control Tolerance meets CDOT Class A (+/- 0.07' with 95% certainty).

5. Secondary Horizontal Control Tolerance meets CDOT Class B (+/-0.13' with 95% certainty).

6. BASIS OF BEARINGS: All bearings are grid bearings of the UTM System, Zone 13 North, NAD 1983 (1992) determined by a fast static GPS survey. The line between point MCDONNELL and point W410, monumented as shown in the Land Survey Control Diagram at CDOT Project No. NH 0361-070, bears N14°20'15.6"W.

7. BASIS OF ELEVATION: Elevations are NAVD '88 Datum established by digital differential levels by CDOT crews as part of a First Order Class II leveling project. Elevations identified with an asterisk (*) are National Geodic Survey (NGS) published values. Elevations followed by (B) were derived from the differential level loops, all other elevations were GPS derived (Geiod '99). On June 25, 2009, the NGS "Blue Booked" Level Project L26455 as a Second Order Class I Vertical Control.

8. Elevations on control points established by digital differential levels were measured with an accuracy exceeding 0.018' times the square root of the distance leveled in miles

9. To convert Project Specific Coordinates to UTM GRID:

Project Northing - (442,527.62+14,000,000)x(0.999350021) = 14,433,140.28 - UTM Grid
Project Easting - (641,175.35+ 1,000,000)x(0.999350021) = 1,640,108.62 - UTM Grid

10. To convert UTM GRID to Project Specific Coordinates:

UTM GRID (survey feet) N (14,433,140.28x1.000650402)-(14,000,000) = 442,527.620 - Project Northing
UTM GRID (survey feet) E (1,640,108.62x1.000650402)-(1,000,000) = 641,175.350 - Project Easting

In no event may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon.

SURVEYOR STATEMENT (LAND SURVEY CONTROL DIAGRAM)

I, Lee Pennell, a professional land surveyor licensed in the State of Colorado, do hereby state to the Colorado Department of Transportation this Supplemental Land Survey Control Diagram was prepared and the field survey it represents was performed under my responsible charge and, based upon my knowledge, information and belief is in accordance with applicable standards of practice defined by Colorado Department of Transportation publications. This statement is not a guaranty or warranty, either expressed or implied.
