

DATE: JUNE 3, 1997
TO: REGION PROGRAM ENGINEERS

FROM: S. W. HORTON

SUBJECT: TECHSTAR ROBEK MODULAR JOINT

On February 11, 1994, the Robek Expansion Joint System supplied by Techstar was included on our list of approved systems conditionally pending complete product evaluation.

Staff Bridge has subsequently removed this joint from our specifications and this joint should not be included on the CDOT approved product list.

Project Managers are requested to replace special provisions for modular expansion joints with the attached Revision 518 Bridge Modular Expansion Joint, dated May 30, 1997. Projects that have been advertised should be revised.
