National Register of Historic Places

The National Register of Historic Places (NRHP) is the official list of the nation's historic and archaeological resources worthy of preservation. The register is a national inventory to which public agencies as well as private citizens may refer. It contains buildings, districts, historic and prehistoric sites, structures, and objects significant on a national, state, or local level. It is administered by the National Park Service of the U.S. Department of the Interior.

There is also a Colorado State Register of Historic Places that is administered by the Colorado Office of Archaeology & Historic Preservation.

In planning transportation projects, CDOT is required to avoid, minimize and mitigate adverse effects to resources that meet NRHP eligibility requirements.
