

## Area of Potential Effect

Federal regulations (36 CFR 800.16(d)) defines the Area of Potential Effect (APE), as: “The geographic area or areas within which an undertaking may directly or indirectly cause changes in the character or use of historic properties, if any such properties exist.”

The area of potential effects is influenced by the scale and nature of an undertaking and varies depending on the nature of resources and effects. The APE is identified in a cooperative effort including the CDOT Archaeologist, CDOT Historian, other project staff, the State Historic Preservation Officer, and consulting parties.
