CDOT Public Education and Involvement Program

One of the efforts undertaken by the Colorado Department of Transportation to protect water quality is the CDOT Public Education and Involvement Program.

This program includes the following activities:

Facilitate the reporting of illegal discharge of pollutants into CDOT's stormwater system. Promote reuse, recycling and proper disposal of motor vehicle fluids. Maintain a website to inform the public about the impacts of illicit discharge and improper waste disposal. Train CDOT staff and contractors regarding CDOT stormwater issues. Meet with internal and external stakeholders to disseminate stormwater quality information. Conduct a variety of other outreach activities for employees and the public such as brochures, fact sheets, posters, newsletters, workshops and conferences
