

PROJECT UPDATE: Edwards Interchange

Week of May 9, 2011

Flagger Manned Lane Closure – 24/7 - May 9 – 16, 2011

ACC has completed the significant work in the entry of the Northstar Business Center and will have limited traffic disruption in this area as we do minor aesthetic. Where we will see a significant change to our traffic pattern, however, is from the Eagle River Bridge to the corner of Miller Ranch Road. Extra work is requiring that ACC limit traffic flow to one lane for the week of May 9. ACC will have flaggers alternating traffic 24 hours per day – please be cautious as you navigate through this area May 9 – 16.

Crew will continue to work on concrete pavement, permanent striping, construction of sidewalks, curb & gutter, installation of light poles, removal of signal poles, guardrail work, and signage. This work may require flagger manned traffic control during construction hours but there will always be one lane of traffic flowing in each direction.

Construction Hours: Sunrise - 7 p.m. Monday - Friday with potential work on Saturday.

Thanks for all your support as we button down a challenging but great project.

ACC will alert you to any significant traffic delays but also encourage you to check our hotline at 970-949-1102 or the CDOT website for more information <http://www.coloradodot.info/projects/i70edwardsinterchange>. Alternatively, you may contact our public information office at 970-566-6912 or via email at EdwardsInterchange@accbuilt.com.
