

# Detours: SH 82 (8th St. Extension) Construction

- Only used during full traffic bridge closure.
- SH 82 detour route is as follows:
  - Begins at West Glenwood Exit (Exit 114).
  - Heads south on Midland Avenue to 8th Street.
  - Goes along a new 8th Street connection into downtown.
  - Downtown, rerouting of traffic through temporary “square about” to continue south to Aspen.
  - CDOT seeking to substantially reduce peak hour auto travel demand through (1) voluntary trip reductions, (2) trip time adjustments, (3) alternative mode shifts, and other means. Without this trip reduction, considerable delays likely along Midland Avenue during peak travel times.
- Traffic increases along Midland Avenue between 8th and 27th Streets from motorists using this route instead of 8th Street detour. Potential difficulty entering Midland Avenue from adjacent neighborhoods and houses during peak hours.
