

# US 50 and Earmarked Transportation Dollars

Approximately \$12 million in earmarked funds are being used to provide for passing opportunities between Pueblo and Fowler (from approximately 59th Lane to .5 miles west of 62nd Lane).

CDOT continues to explore how to best apply the remaining funds that ensures their most effective use along the corridor.

Partnering for Progress

\* \$12 million for earmarks from Pueblo to Kansas was presented for the passing lanes on the boards during the public meetings but the correct earmark amount is actually \$11 million. The earmark from Las Animas to Lamar is \$12 million.
