

Questions & Answers

Q: WHAT IS THE PURPOSE OF THE PROJECT? WHY ARE IMPROVEMENTS NEEDED?

A: The purpose of any transportation improvements recommended by this study are to improve existing and future corridor and intersection operations, to enhance multimodal connectivity, and to improve safety for all users along US 6 from I-70B to 33 Road. Transportation improvements are needed to address traffic operational issues, lack of adequate multimodal facilities, and safety concerns.

Q: WHAT IS THE STUDY SCHEDULE?

A: Highlights of this study's schedule include:

- Existing conditions evaluation: November 2014 - January 2015
- Alternatives development and screening: January - September 2015
- Public meeting #1: February 2015
- Draft study recommendations: September/October 2015
- Public meeting #2: Fall 2015
- Final Study Report: Fall 2015
- Stakeholder coordination: Throughout project

Q: WHICH IMPROVEMENT ALTERNATIVES ARE STILL BEING CONSIDERED?

A: Following two levels of alternatives evaluation, a No Action alternative and the following three action alternatives are being carried forward into Level 3 alternatives development and detailed analysis.

- US 6 Improved Two Through Lanes
- US 6 Four Through Lanes
- Front Street Connection Two-Way with US 6 Improved Two Through Lanes

Q: WHAT WILL THE PRODUCT OF THIS STUDY BE?

A: This study will develop recommendations to improve operational performance and safety and potentially reduce congestion along the US 6 corridor through downtown Clifton. The study will provide a plan for future short- and long-term improvements, which will be used by CDOT and Mesa County for project implementation.

Q: WHEN WILL RECOMMENDATIONS FROM THIS STUDY BE CONSTRUCTED?

A: The timeline for improvements is dependent on funding availability. Currently, there is no funding identified. Phasing of improvements as separate projects is likely.

Q: WHERE CAN I FIND MORE INFORMATION ABOUT THE PROJECT AND SUBMIT A COMMENT?

A: Attend the final public meeting (planned for fall 2015) to review the study recommendations and provide your comments. Visit the project web page for meeting information or to submit a comment:
