

# ALTERNATIVE 16 | Front Street Connection Two-Way with US 6 Improved Two Through Lanes

- NOTES:**
1. Conceptual design based on planning-level topographic information, aerial photo, and County GIS parcel data.
  2. Parcels and right-of-way have not been surveyed and aerial mapping is intended to serve as graphic representation only.
  3. Potential right-of-way and property impacts are based on a conceptual level of design. Actual right-of-way impacts to be determined during future design.
  4. Area of pedestrian/bicyclist facilities at individual locations to be determined during future design.
  5. Additional right-of-way and/or easements may be required for slope, drainage, utilities, and/or construction.

**Legend**

	Planned property access		Potential full property acquisition
	Curb and gutter		Impacted potential noise receiver
	Sidewalk		Impacted potential hazardous material site
	Raised median area		Impacted potential historic resource
	Property line		
	Bus stop		
	Traffic signal		

0 200 400 Feet

Front Street widened north of Union Pacific Railroad right-of-way

Bus stop enhancements

Bus stop enhancements

Front Street

5-foot sidewalk on north side of Front Street

Striped bike lanes along Front Street

Striped bike lanes along US 6

New traffic signal at 5th Street (when signal warrants are met)

Bus access converted to right-in/right-out

Remove pedestrian signal (shifted to 5th Street signal)

New mid-block pedestrian/bicyclist crossing

Restrict southbound left turn at Holland Street

Street access converted to right-in/right-out

Restrict southbound left turn at Lois Street

Bus stop enhancements

Remove acceleration lane

Increase left turn lane length

Front Street

Front Street underpass under 32 Road

Revise lane configuration at I-70B
