## REGION 3 2016 TRAFFIC WATCHERS

### PROGRAM EAST

#### MOUNTAIN/EAGLE RESIDENCIES

(Eagle, Lake, Summit, Grand & Jackson counties)

#### US 6 Lake Creek Bridge (F-10-C), 19395

Cost: \$2.48M

Contractor: Hamilton Construction

Work: This project includes replacing the Lake Creek Bridge at MP 164.6-165.6. A full detour will be put in place for length of the project in one lane each direction.

Improvements on: Centerline Miles; Total Lane Miles; 1 Bridge

Average Annual Daily Traffic: 11,000

Project Benefits: Major benefits include a new bridge with wider shoulders for the traveling public and improved guardrail protection approaching the bridge.

Work Hours: Anticipated construction schedule is Monday through Friday, 7:00am to 5:00pm. Weekend work is not anticipated, but may be required throughout the project.

Duration: March-November 2016

Project Information: Email - [US6LakeCreekBridge@hamil.com](mailto:US6LakeCreekBridge@hamil.com)

Project Hotline: 970-401-1149

County: Eagle

#### I-70 Vail Underpass; 19094

Cost: \$21.4 M

Contractor: Kraemer North America LLC

Work: CDOT and Town of Vail's I-70 Vail Underpass project, aims to decrease interchange congestion and increase community mobility by providing another connection between the North and South Frontage roads within Vail.

Improvements on: I-70 MM 174.8-175, N. Frontage Road - 0.23 miles, S. Frontage Road-0.28 miles.

Average Annual Daily Traffic: 29,000 (I-70)

Project Benefits: The underpass will help relieve congestion at the interchanges and prevent vehicles from queuing at the I-70 exits at Main and West Vail. Also helps reduce repetitive I-70 local traffic by providing a direct connection between the core resort village areas and the West Vail mall area. The underpass will enhance multimodal transportation options within the Town of Vail. The tentative project schedule aims to reduce construction impacts during the winter tourism season.

Work Hours: Work hours will vary based on the Construction phase. The first phase through the end of June - Work hours during this first project phase are anticipated to be 7 a.m. to 7 p.m., however, the I-70 lane closures will remain in place 24/7 throughout the first phase of construction. Since much of the work is weather-dependent, it may be necessary for crews to do additional nighttime and/or weekend work to stay on schedule.

Duration: April 2016-December 2017

Project Information: [codot.gov/projects/I70VailUnderpass.com](http://codot.gov/projects/I70VailUnderpass.com)

Project Hotline: 970-685-7706

County: Eagle

### **I-70 Vail Chain Station Improvements; 19490**

**Cost:** \$4.82 million

**Contractor:** SEMA Construction

**Work:** Extend the Eastbound I-70 Chain up station at I-70 MM 178.40 approximately 1500' to the west. Work includes widening I-70, installation of a wall, drainage improvements, water quality, installation of chain up lighting and installation of closed circuit cameras.

Replace existing chain-down station lighting on I-70 WB at MM 178.7.

**Improvements on:** I-70 MM 178.09-178.93

**Average Annual Daily Traffic:** I-70 AADT 25,000

**Project Benefits:** Safety

**Work Hours:** Daylight, no night work, likely limited weekend work.

**Duration:** May 2016-November 2016

**Project Information:** Hotline 970-306-0155

**Project email:** vailchainstation@gmail.com

**County:** Eagle

### **US 24 Cross Creek Culvert; 18266**

**Cost:** \$1.3 million

**Contractor:** Oldcastle SW Group

**Work:** This project is at US 24 MM 147.12 and consists of the replacement of the existing 14' x 8.5' cross creek culvert structure and approaches with a 20' x 8' concrete box culvert. Improvements include temporary culverts, grading, paving, pavement widening, guardrail and bridge rail, temporary signals, traffic control, signing and striping and sanitary sewer replacement.

**Improvements on:** US 24 - 380 feet

**Average Annual Daily Traffic:** 2,500

**Project Benefits:** Safety - Replace culvert at adequate size to accommodate Cross creek. History of Cross Creek overtopping US 24.

**Work Hours:** Daylight, no night work, likely limited weekend work.

**Duration:** June 2016-November 2016

**Project Information:** TBD

**County:** Eagle

### **CO 9 Iron Springs Alignment; 19930**

**Cost:** \$20.6 M RAMP

**Contractor:** SEMA

**Work:** Realignment and widening of SH 9 with recreation path improvements south of Frisco

**Improvements on:** 2 Centerline Miles; 5.6 Total Lane Miles

**Average Annual Daily Traffic:** 18,000

**Project Benefits:** Capacity and safety.

**Work Hours:** Monday-Saturday, 7:00 a.m.-6:00 p.m. Saturday work will not impact traffic.

**Duration:** May- November 2016, winter shutdown, May-December 2017

**Project Information:** Hotline 970-401-0901

**Project email:** CDOTIronSprings@gmail.com

**County:** Summit

### **I-70 Critical Culvert mm 211.7; 20368**

**Cost:** \$1M

**Contractor:** American West

**Work:** Culvert lining with diversion required, new headwall, outlet repair. Requires closure of WB upper runaway truck ramp

**Improvements on:** 1 Centerline Miles; 0 Total Lane Miles

**Average Annual Daily Traffic:** 31,000

**Project Benefits:** Safety and mobility

**Work Hours:** daytime with upper runaway truck ramp closed 24 hours- 7days/week

**Duration:** September 2016-Completion date of 11-1-2016

**Project Information:** TBD

**County:** Summit

### **I-70 Vail Pass Barrier Replacement; 20582**

**Cost:** \$6.5 M

**Contractor:** New Design Construction

**Work:** Replacement of old type 4 guardrail to new Type 7 Guardrail, apprx. 23,000 LF including bridge rail work on 6 structures

**Improvements on:** 7.1 Centerline Miles; 28.4 Total Lane Miles

**Average Annual Daily Traffic:** 23,000

**Project Benefits:** Safety

**Work Hours:** Monday at 7am thru Friday at 7am

**Duration:** Completes in 2017, winter shut down by Nov. 1 2016

**Project Information:**Hotline 970-306-4549

**Project email:** I70Barrierreplacement@gmail.com

**County:** Eagle

### **I-70 Frisco; 21132**

**Cost:** \$6.5 M

**Contractor:** TBD, bids open April 14

**Work:** 2inch mill and 2inch HMA Eastbound right lane and ramps

**Improvements on:** 6 Centerline Miles; 6.5 Total Lane Miles

**Average Annual Daily Traffic:** 27,000

**Project Benefits:** Safety to remove rutting from truck chains

**Work Hours:** daylight, Monday-Friday noon

**Duration:** September-October 2016

**Project Information:** TBD

**County:** Summit

### **CO 9 Wildlife Safety Improvements Project; 19910**

**Cost:** \$40 million budget RAMP\*

**Contractor:** Kirkland Construction

**Work:** Shoulder widening, highway realignment, upgrades to drainage structures, resurfacing, wildlife overpasses and underpasses and animal fencing. Work takes place at MP 126-138. Some night work will be required to install overpass structures and pipes under the roadway surface. First phase of project will start on the North end MP 131-137. Phase 2 will cover South end and begin in 2016. In winter shutdown, road will be paved for travel.

**Improvements on:** 11 Centerline Miles; 22 Total Lane Miles; XX Bridges; 18 Culverts

**Average Annual Daily Traffic:** 3100-3600

**Project Benefits:** Safety improvements to highway as well as wildlife mitigation.

**Work Hours:** M-F, 7:00 a.m.-5:30 p.m.

**Duration:** April 2015-November 2016

Project Information: [SH9Kremmling@publicinfoteam.com](mailto:SH9Kremmling@publicinfoteam.com)

Project Hotline: 970-724-4724

County: Grand/Summit

### [SH 9 Park Ave and 4 O'Clock Roundabout Frisco; 17142 \(Local Agency, Town of Breckenridge\)](#)

Cost: \$1.1M

Contractor: TBD

Work: Single Lane Roundabout to replace unsignalized intersection in Town

Improvements on: 0.5 Centerline Miles; 1 Total Lane Miles

Average Annual Daily Traffic: 11,000 - 14,000

Project Benefits: Safety

Work Hours: daylight hours

Duration: May-October 2016

Project Information: TBD- Town of Breckenridge

County: Summit

### [I-70 Eagle Vail Bridges \(F-11-AB & AC\); 18159](#)

Cost: \$8.1 Million

Contractor: Structures Inc.

Work: Work includes 600 fatigue crack repairs and retrofits, scour mitigation, deck rehabilitation, bridge joints and paving the deck.

Improvements on:

Project Benefits: Attain 30 more years of service life from the structures.

Work Hours: Five to Seven days and nights a week. Cross over will be used April 17th until May 23 incorporating head-to-head traffic with concrete barrier.

Duration: April-July 2016

Project Information: Primarily work will take place this spring to complete remaining work on the westbound bridge.

County: Eagle

## PROGRAM CENTRAL

GLENWOOD SPRINGS and CRAIG RESIDENCIES

(Garfield, Pitkin, Rio Blanco, Moffat, Routt)

### [Various Chip Seals - SH 14; 20765](#)

Cost: \$2.9 M

Contractor: United

Work: Chip Seal on SH 14 east of Walden, including Cameron Pass and some R4 work

Improvements on: 41.7 Centerline Miles; 83.4 Total Lane Miles

Average Annual Daily Traffic: 1,100

Project Benefits: New wearing surface and deep/full width surgical repairs

Work Hours: 7AM - 7PM

Duration: July - September

Project Information:

County: Jackson, Larimer

### [US 40 Rabbit Ears East Resurfacing; 20549](#)

Cost: \$5.3

Contractor: Elam Construction

Work: Mill/Fill Overlay

**Improvements on:** US 40 X Centerline Miles; 10 miles X Total Lane Miles = 32

**Average Annual Daily Traffic:** 1400

**Project Benefits:** New 2 inch overlay with guardrail

**Work Hours:** 7:00am to 6:00pm

**Duration:** June 2016-August 2016

**Project Information:** Hotline 970-724-4244

**Project email:** US40paving@publicinfoteam.com

**County:** Grand, Jackson, Routt

### **CO 13 North of Craig Resurfacing; 20548**

**Cost:** \$7M

**Contractor:** Castle Rock construction Company

**Work:** This is a Surface rehabilitation project located on State Highway 13 in Moffat County North of the town of Craig between milepost 98.0 and 104.0. The project consist of a 6-inch concrete whitetopping placed on top of existing asphalt. Additional components of work include Guardrail removal and replacement, culvert repair at Structure B-07-S, Shouldering, and Striping.

**Improvements on:** 6 Centerline Miles; 12 Total Lane Miles. Milepost 98.0 to 104.0

**Average Annual Daily Traffic:** 1400

**Project Benefits:** New 6-inch Concrete whitetopping roadway surface, new guardrail and culvert repairs.

**Work Hours:** 7:00 Am to 7:00 PM Monday thru Friday and some Saturdays.

**Duration:** June 6th thru Oct 14th 2016

**Project Information:** Circuit Media

**County:** Moffat

### **CO 13 North of Piceance Creek; 20102**

**Cost:** \$7.5M

**Contractor:**

**Work:** This project consists of a minor roadway widening from 26' to 40' with minor horizontal and vertical alignment adjustments. Other construction activities include grading, paving, drainage improvements, signing and striping, seeding, and replacing all fencing.

**Improvements on:** 2.1 Centerline Miles; 4.2 Total Lane Miles. Milepost 20.7 to 22.8.

**Average Annual Daily Traffic:** 3549

**Project Benefits:** Roadway widening, guardrail improvements (MGS 31), softening of alignment.

**Work Hours:** 7 AM to 7 PM, Monday through Friday. Some Saturdays.

**Duration:** June-November 2016

**Project Information:** Hotline 970-878-8178

**Project email:** SH13@publicinfoteam.com

**County:** Rio Blanco

### **R3 Beetle Kill Tree Removal; 19556**

**Cost:** \$1.4 million budget

**Contractor:** Forest Service

**Work:** Design and construction project

**Project Benefits:** Removing hazardous trees killed by the Pine Beetle

**Work Hours:** 7AM - 7PM

**Duration:** On-going through Summer 2016

**County:** Routt, Jackson, Grand, Summit

### SH 13 Yampa River Bridge Repair (C-06-D); 19470

Cost: \$4.2 million budget

Contractor: New Design Construction

Work: Load shift from shallow foundations to deep foundations

Improvements on: XX Centerline Miles; XX Total Lane Miles; XX Bridges; XX Culverts; XXX linear-foot rockfall area

Project Benefits: Repairing a scour critical bridge

Work Hours: 7AM - 7PM with some night work

Duration: June-November 2016

Project Information: [yampariverbridge@gmail.com](mailto:yampariverbridge@gmail.com)

Hotline #: 970-306-4549

County: Moffat

### I-70 Glenwood Canyon Rockfall Mitigation;

Cost: \$5.0

Contractor: ACC

Work: repair EB/WB structure with polyester concrete

Improvements on: Centerline Miles; .1 Total Lane Miles; .1 Bridges; 2 Culverts; XXX linear-foot rockfall area

Average Annual Daily Traffic: 16,000-22,000

Project Benefits: safety for traveling public

Work Hours: M-F, daylight to dusk with some night and weekend work expected.

Duration: June-August 2016

Project Hotline: 970-618-1457

Project email: [glenwoodcanyoninfo@gmail.com](mailto:glenwoodcanyoninfo@gmail.com)

County: Garfield

### CO 82 Grand Avenue Bridge; 18158

Cost: \$68 M Bridge Enterprise

Contractor: Granite/RL Wadsworth

Work: The Grand Avenue Bridge (GAB) project is a 30-month construction project building a new GAB and pedestrian bridge. The GAB and the pedestrian bridge serve as an important connection between downtown Glenwood Springs, the historic Glenwood Hot Springs district, and Interstate 70. This project will improve multimodal connectivity and address the functional and structural deficiencies of the bridge, including emergency service response and reliability as a critical transportation route.

Average Annual Daily Traffic:

Project Benefits: Improved traffic flow through busy intersection. Replacement of scour critical bridge.

Work Hours: Daylight to Dusk, M-F; Some weekend work expected

Duration: January 2016-November 2017

Project Information: [info@grandavenuebridge.com](mailto:info@grandavenuebridge.com)

Project Hotline: (970) 618-9897

Project Website: [grandavebridge.codot.gov](http://grandavebridge.codot.gov)

County: Garfield

### CO 13 Emergency Project;

Cost: \$850,000.00

Contractor: ACC West Coast

Work: asphalt patching, sections of 2 inch overlay

**Improvements on:** both lanes X Centerline Miles; 45 Total Lane Miles 90  
**Average Annual Daily Traffic:** 1400  
**Project Benefits:** safer for traveling public  
**Work Hours:** 7:00am to 6:00pm  
**Duration:** 45 days  
**Project Information:**  
**County:** Moffatt

### **CO 131 State Bridge;**

**Cost:** \$1.6  
**Contractor:** ACC West Coast  
**Work:** Repair bridge deck  
**Improvements on:** .2 mile X Centerline Miles; X Total Lane Miles .2 mile  
**Average Annual Daily Traffic:** 1500  
**Project Benefits:** Improved roadway surface.  
**Work Hours:** 7:00 am to 6:00 pm  
**Duration:** 5/15/16 to 7/31/16  
**Project Information:** coloradosh131@gmail.com  
**County:** Garfield

## **PROGRAM WEST**

**GRAND JUNCTION and MONTROSE RESIDENCIES**  
(Mesa, Delta, Montrose, Gunnison & Hinsdale)  
Jason Smith, Program Engineer; w [970\) 683-6208/c](tel:9706836208) (970) 773-0807

### **I-70 Exit 31 Horizon Drive Roundabouts; 19911**

**Cost:** \$5.25 million RAMP  
**Contractor:** M.A. Concrete Construction  
**Work:** The I-70/Horizon Drive Improvement Project is a 12-month construction project located on Horizon Drive at the interchange with Interstate I-70 (Exit 31) in Grand Junction. Details of the project include the construction on Horizon Drive of two modern-style roundabouts that will assist in improving traffic flow and safety, as well as adding environmental aesthetics to the area. Additional construction improvements include ramp upgrades, concrete sidewalks and gutters and re-surfacing. A new access route for the Grand Junction Visitors Center along Visitor's Way will also be created. 1.5 mi on I-70, 0.32 mi on Horizon Dr  
**Annual Daily Traffic:** 18,000 on I-70  
**Project Benefits:** Increased safety and traffic volume handling with interchange improvements.  
**Work Hours/Impacts:** Monday through Friday, daylight hours (nighttime work possible)  
**Duration:** August 2015-June 2016  
**Project Hotline:** 970-778-3598

**Project Email:** 70HorizonDrive@gmail.com  
**County:** Mesa

### **US 50 Orchard Mesa Resurfacing; 20514**

**Cost:** \$ 5.4 M

**Contractor:** Old Castle/United

**Work:** This project will resurface a 5-mile stretch of US 50 in the southern part of Grand Junction from Pitkin Ave. south to 29 Road. The scope of work will also include median construction and guardrail upgrades, as well as other minor roadway repairs. All of these modifications are intended to make the road safer and smoother for motorists. There will also be work done to the various bridges throughout the project, including rail repair, deck resurfacing and rehabilitation and sidewalk curb repair.

**Work Hours:** M-F, 5:00 a.m.-7:00 p.m.

**Duration:** March-September 2016

**Project Information:** [US50@publicinfoteam.com](mailto:US50@publicinfoteam.com)

**Project Hotline:** 970-438-4438

**County:** Mesa

### **US 50 East of Gunnison; 19282**

**Cost:** \$9.9 million

**Contractor:** Oldcastle SW Group

**Work:** Resurfacing existing pavement, Repair of Bridge Deck at Parlin (MM 169.1) The work consists of resurfacing which includes cold-in-place recycle (CIP), hot mix asphalt overlay (HMA), bridge deck rehabilitation, bridge rail and epoxy pavement marking. CMO added work from MM 139 to MM 154; 2" mill and fill overlay.

**Improvements on:** 14.7 Centerline Miles; 31.4 Total Lane Miles; 1 Bridge

**Average Annual Daily Traffic:** 5633

**Project Benefits:** Improved riding surface

**Work Hours/Impacts:** 7:00 AM to 6:00 PM Monday - Friday. There may also be some Saturday work. Impacts will be single lane traffic through the added work section. Pilot cars will be utilized during the work.

**Duration:** expected completion in June 2016

**Project Information Line:**

**County:** Gunnison

### **US 50 Blue Creek Reconstruction; 19495**

**Cost:** \$12.3 million

**Contractor:** SEMA Construction

**Work:** Installation of coupled shear piles, roadway reconstruction

**Improvements on:** 2 centerline miles, landslide area

**Average Annual Daily Traffic:** 3528

**Project Benefits:** Landslide mitigation, improved safety

**Work Hours/Impacts:** TBD

**Duration:** May 2016 to September 2017

**Project Information Line:**

**County:** Gunnison

### **US 50 West of Gunnison; 20133**

**Cost:** \$7.1 million

**Contractor:** Oldcastle SW Group

**Work:** Resurfacing existing pavement, repair of bridge decks over the Gunnison River and overflow (MM 155.49 and 155.67). The work consists of resurfacing which includes cold-in-place recycle (CIP), hot mix asphalt overlay (HMA), bridge deck rehabilitation, and epoxy pavement marking.

**Improvements on:** 10.9 centerlane miles; 2 bridges

**Average Annual Daily Traffic:** 12,540

**Project Benefits:** Improved riding surface

**Work Hours/Impacts:** TBD

**Duration:** May 2016 to October 2016

**Project Information Line:** 970-254-3203

**County:** Gunnison

### **US 50 and SH 348 Culvert Repairs; 20860**

**Cost:** \$1.1 million

**Contractor:** TBD

**Work:** Lining US 50 culvert (MM 108.8) with a cure-in-place-pipe; replacing 48" CMP on SH 348 (MM 6.64) with an 8' by 10' concrete box culvert

**Improvements on:** 2 culverts

**Average Annual Daily Traffic:** US 50 3200; SH 348 560

**Project Benefits:** Improved drainage flow through both pipes

**Work Hours/Impacts:** TBD; full closure of SH 348 with detour in place

**Duration:** July 2016 to October 2016

**Project Information Line:**

**County:** Montrose

### **SH 149 Spring Creek Pass North; 20804**

**Cost:** \$5.3 million

**Contractor:** Oldcastle SW Group

**Work:** Resurfacing existing pavement, repair of bridge deck at MM 69. The work consists of resurfacing which includes cold-in-place recycle (CIP), hot mix asphalt overlay (HMA), bridge deck rehabilitation, and epoxy pavement marking.

**Improvements on:** 14 Centerline Miles; 1 Bridge

**Average Annual Daily Traffic:**

**Project Benefits:** Improved riding surface

**Work Hours/Impacts:** 7:00 AM to 6:00 PM Monday - Friday. There may also be some Saturday work. Impacts will be single lane traffic. Pilot cars will be utilized during the work.

**Duration:** May 2016 to October 2016

**Project Information Line:** 970-633-2363

**Project email:** SH149@publicinfoteam.com

**County:** Hinsdale

## TRAFFIC

### TRAFFIC RESIDENCY and TRAFFIC OPERATIONS (Region Wide)

#### R3 Montrose Signal Replacement Project; 20565

Cost: \$1.4M

Contractor: CS Construction, Inc.

Work: Traffic Signal Replacement

Annual Daily Traffic: 22,000

Project Benefits: Replace existing traffic signal equipment with newer equipment to minimize maintenance and lengthen the life expectancy for structural elements and infrastructure.

Work Hours/Impacts: M-F, 7am to 7 pm primarily with shoulder and right turn lane closures. Locations include US 50 (Townsend Ave) / La Salle Rd, US 550 (Townsend Ave) / S 7th St, and US 550 (Townsend Ave) / S 12th St-Columbia Wy.

Duration: May 2, 2016 to October 2016

Project Hotline: TBD

Project Email: TBD

County: Montrose

#### FY 16 Region Wide Stencil Project; 21386

Cost: \$650 K

Contractor: Roadsafe Traffic Systems, Inc.

Work: Replacement of crosswalk/stop bar and word/symbol stencils on US 40A&Z, 50A, 550B and SH 13B, 64A, 135A, and 394A.

Annual Daily Traffic: various

Project Benefits: Replace worn and damaged stencils throughout Region 3.

Work Hours/Impacts: M-F, 7am to 7 pm (generally)

Duration: April 2016 to October 31, 2016

Project Hotline: 970 683-7532

County: Grand, Gunnison, Jackson, Moffat, Montrose, Rio Blanco, and Routt

#### FY 16 I-70 Centerline Tape Project; 21387

Cost: \$430 K

Contractor: Roadsafe Traffic Systems, Inc.

Work: Replace the centerline skips on I-70 in both directions from mile marker 130.0 to 180.0.

Annual Daily Traffic: 18 K to 36 K

Project Benefits: Replace worn and faded centerline skip lines on I-70.

Work Hours/Impacts: M-F, 7am to 7 pm (generally)

Duration: April 25 to June 30, 2016

Project Hotline: 970 683-7532

County: Eagle

### **FY 16/17 Region Wide Epoxy Striping; 21388**

**Cost:** \$1.6 M

**Contractor:** Roadsafe Traffic Systems, Inc.

**Work:** Removal of Pavement Marking and Epoxy Striping

**Annual Daily Traffic:** I-70 = 15k to 38k; SH-82 = 6.5k to 29k

**Project Benefits:** Restripe pavement markings on I-70 from MP 90 (Rifle) to MP 213.5 (Tunnel) and on SH-82 from MP 0 (GWS) to MP 47 (~5 miles south of Aspen)

**Work Hours/Impacts:** M-F, 7am to 7 pm (generally)

**Duration:** May 2, 2016 to October 2016

**Project Hotline:** TBD

**Project Email:** TBD

**County:** I-70 = Garfield, Eagle, & Summit; SH-82 = Garfield, Eagle, & Pitkin

### **I-70 Fiber Vail to Glenwood Springs; 19341**

**Cost:** \$20,261,761

**Contractor:** ADB

**Work:** Construction of fiber optic trunk line with various ITS devices

**Annual Daily Traffic:** 17,000 - 37,000

**Project Benefits:** Fiber connectivity between CDOT control centers and ITS devices.

**Work Hours/Impacts:** 7 AM - 5 PM, 4-5 weekdays/week, lane & shoulder closures

**Duration:** Completion Summer 2016

**Project Hotline:** 314-280-9516

**Project Email:**

**County:** Eagle/Garfield

### **SH 82 Basalt Pedestrian Underpass; 20284**

**Cost:** \$6,232,201

**Contractor:** United Companies

**Work:** Construction of pedestrian underpass

**Annual Daily Traffic:** 17,000

**Project Benefits:** Pedestrian and bicycle connectivity to Basalt RFTA transit station

**Work Hours/Impacts:** Detour lane shifts with intermittent lane/shoulder closures

**Duration:** Summer 2016 - Summer 2017

**Project Hotline:**

**Project Email:**

**County:** Pitkin
